
Algorithm 1 La criba de Eratstenes

```
m[2...n], array de enteros
for  $j$  de 2 hasta  $n$  do
     $m[j] \leftarrow 0;$ 
end for
 $j \leftarrow 2;$ 
while  $j \leq n$  do
    if  $m[j] = 0$  then
         $i \leftarrow j;$ 
        while  $i \leq n$  do
            if  $m[i] = 0$  then
                 $m[i] \leftarrow j;$ 
            end if
             $i = i + j;$ 
        end while
    end if
end while
regresa  $m[2...n]$ 
```
